PROFILE

Software developer with 2+ years of experience building web applications. Experience includes backend development with Node.js and Express.js, REST API development, JWT authentication and role-based access control, database design and optimization, and AWS deployment. Collaborates with frontend, QA, and product teams through code reviews and Agile practices to deliver business-focused solutions.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), TypeScript
Backend Development: Node.js, Express.js, REST APIs, JWT Authentication, Role-Based Access Control (RBAC)
Frontend Development: React.js, Tailwind CSS, Material UI, shadcn/ui
Databases and Caching: PostgreSQL, MySQL, MongoDB, Redis
Cloud and DevOps: AWS EC2, AWS S3, AWS Lambda, CloudFront, Docker, Linux, GitHub Actions
Tools: Git, GitHub, Postman, pgAdmin, XAMPP

WORK EXPERIENCE

Software Developer | BhojSoft Solutions | August 2024 – Present | Pune, Maharashtra

- Developed and maintained full-stack MERN applications, contributing to a reported 20% improvement in business workflow efficiency.
- Designed backend services using Node.js and Express.js for platform functionality.
- Optimized database queries and API performance, contributing to a reported 25% reduction in response time.
- Implemented authentication, role-based access control, and data validation.
- Collaborated with frontend, QA, and product teams; deployed and maintained applications using AWS.

Backend Developer Intern | BhojSoft Solutions | March 2024 – August 2024 | Pune, Maharashtra

- Developed REST APIs using Node.js and Express.js.
- Designed and managed MySQL and PostgreSQL database schemas.
- Designed and maintained 20+ REST APIs.

PROJECTS

Online Learning Platform

• Developed APIs and frontend modules for courses, trainers, institutes, and user management using the MERN stack and PostgreSQL.

• Deployed components using AWS EC2, AWS Lambda, and AWS S3; contributed to team coordination, Agile practices, and code reviews.

Stock Exchange Data Processing Platform

• Designed ETL pipelines for stock exchange and ticketing data from external APIs, including transformation and validation workflows.

• Optimized PostgreSQL queries and indexing, with a reported 30% reduction in query execution time; integrated Redis caching, with a reported 40% reduction in API response time.

• Technologies: Node.js, PostgreSQL, REST APIs, AWS EC2, Redis.

News Platform

• Built a full-stack MERN application with Admin, Anchor, and User roles; developed REST APIs with JWT authentication and authorization.

• Deployed the backend on AWS EC2 and the frontend on AWS S3 with CloudFront; configured a custom domain and DNS.

• Technologies: React.js, Node.js, Express.js, MongoDB, JWT, AWS EC2, AWS S3, CloudFront.

EDUCATION

Master of Computer Applications (MCA) | Zeal Education Society, Pune, SPPU | August 2022 – July 2024

Bachelor of Science in Computer Science (B.Sc. CS) | NVPM's Arts, Commerce and Science College, Lasalgaon, SPPU | 2018 – 2021
